I don't know who Alex Jones is, but when Bill Cooper said that Alex Jones is a liar, I somehow believed Bill Cooper.

Bill Cooper was a U.S. Special Operations Command psychological warfare agent just like Alex Jones is (Cooper was a 20 year long U.S. Naval Intelligence officer). Alex Jones and Bill Cooper were/are part of the exact same U.S.S.O.C.O.M. psychological warfare program.

Thank you, very obviously he is a shill. Or may be it is too obvious? Is it too easy to see his lies? Does he want us to see them?

Patrick Bergy (shadowgate) have come out and said Alex Jones studio is all equipped with military grade camera vid process equipment and not the regular TV studio stuff, he was baffled to find such things at Jones as military grade equipment is many many times more costly and not needed for the productions Alex makes, a sign i suppose.
